

MAGNETONE

Brings You Closer To Print Perfection

Brand New Rollers Direct From Our Factory

- Designed for high-speed printers/copiers & high yield cartridges that print beyond 60,000 pages.
- Rollers are produced using URETHANE COATING, an outstanding topcoat that provides exceptional protection against drum contamination. It not only helps to extend an OPC drum's lifespan, but more importantly it allows a toner cartridge to have a longer shelf life.
- Manufactured under very stringent conditions adhering closely to JIS (Japan International Standards) AQL 0.40% requirements.

Surface Roughness Tester

Walk-in Chamber

Laser Scan Micrometer
